

Till We Meet Again

A loved one has gone from our family
I keep hearing that voice say "Grieve not for me"
Remember the memories we have from our youth
When standing beside you and speaking the truth.

I took you forever my loved one to be
Wherever I was, in air, land, or sea,
Just think on the good times, when we were both strong
The "pet" names we had, the music, our song.

Hold steady my loved one, our family needs you
Despite tears and crying the sun will shine through
I bask now in heaven, my spirit at rest
And looking at life, I truly was blessed.

At times you will smile at thoughts of the past
Enjoy them my dear one, those memories won't last,
You'll miss me, I know dear, the parting's till "when"
The bright morning dawns, we're together again.
